Summary:

Full Stack Developer with 5 years of experience in designing, developing, and implementing software applications. Experienced in both front-end and back-end development, proficient in multiple programming languages and frameworks. Strong problem-solving skills and the ability to work collaboratively in a team environment.

Skills:

- Languages: Java, JavaScript, Python, HTML, CSS, SQL**
- Frameworks: Spring Boot, React, Angular, Django**
- Databases: MySQL, MongoDB, PostgreSQL**
- Version Control: Git, GitHub**
- Agile Development**
- Test-driven Development (TDD)**
- RESTful APIs**
- UI/UX Design**
- Problem-solving**

Experience:

Full Stack Developer | XYZ Software Solutions

January 2018 - Present

- Developed and maintained web applications using Java Spring Boot, React, and MySQL.
- Collaborated with a team of developers to deliver high-quality software solutions within project deadlines.
- Participated in agile development processes, including daily stand-ups and sprint planning.
- Implemented RESTful APIs to enable seamless communication between front-end and back-end systems.
- Worked closely with UI/UX designers to create user-friendly interfaces.

Software Engineer | ABC Tech

March 2015 - December 2017

- Designed and developed web applications using Java, JavaScript, HTML, and CSS.
- Utilized Angular framework to create responsive and interactive user interfaces.
- Implemented database structures using MySQL and MongoDB.
- Collaborated with product managers to define and prioritize software requirements.
- Conducted thorough testing and debugging to ensure the quality and performance of applications.

Education:

Bachelor of Science in Computer Science

XYZ University

May 2014

Projects:

- "E-commerce Website" (React, Node.js, MongoDB)

Developed a fully functional e-commerce website with an intuitive UI, product listings, shopping cart functionality, and secure payment integration.

- "Task Management App" (Java Spring Boot, Angular, PostgreSQL)

Created a task management application that allows users to assign, track, and prioritize tasks. Implemented RESTful APIs for seamless data exchange between the front-end and back-end.

- "Personal Portfolio Website" (HTML, CSS, JavaScript)

Designed and developed a personal portfolio website to showcase projects, skills, and experience. Implemented responsive design principles for optimal viewing across devices.

Certificates:

- Full-Stack Web Developer Certification from Udemy

- Agile Software Development Certification from XYZ University
