## **Summary**

**Passionate and highly skilled Software Developer with 5 years of experience in designing and developing software solutions. Proficient in various programming languages and frameworks, with a focus on creating efficient and user-friendly applications. Strong attention to detail and problem-solving abilities, enabling successful completion of complex projects. Dedicated to continuous learning and staying updated with the latest industry trends.**

## **Skills**

- Programming Languages: Java, C++, Python, JavaScript**
- Frameworks: Spring, Django, Angular, React**
- Databases: MySQL, MongoDB, PostgreSQL**
- Version Control Systems: Git, SVN**
- Software Development Lifecycle (SDLC)**
- Object-Oriented Programming (OOP)**

## **- Agile Development Methodologies**

### **Experience**

#### **Software Developer | XYZ Solutions | May 2017 - Present**

- Collaborated with cross-functional teams to design and develop software solutions based on client requirements.**
- Implemented new features and resolved issues, improving the overall performance and reliability of existing applications.**
- Conducted code reviews to ensure adherence to coding standards and best practices.**
- Collaborated with QA team to perform testing and debugging of software applications.**
- Participated in agile development sprints and meetings to provide insights and contribute to project planning.**

#### **Assistant Software Developer | ABC Co. | August 2015 - April 2017**

- Assisted in designing and developing web applications using Java and Spring framework.**
- Participated in requirements gathering and analysis sessions to understand client needs.**
- Collaborated with senior developers in coding and testing software modules.**
- Assisted in troubleshooting and resolving issues identified during testing.**

### **Education**

#### **Bachelor of Science in Computer Science | University of XYZ | May 2015**

## **Projects**

**Expense Tracker App | GitHub: [github.com/yvonneeward/expense-tracker-app](https://github.com/yvonneeward/expense-tracker-app)**

- Designed and developed a web application that allows users to track their expenses and generate reports.
- Implemented user authentication and authorization features using Spring Security.
- Utilized Angular framework for the frontend and Spring Boot for the backend.

## **Personal Projects**

- Developed a personal finance management app using React and Django.
- Created a data visualization tool using Python and D3.js.

## **Certifications**

- Certified Java Developer (Oracle)
- Agile Scrum Master (Scrum Alliance)

## **Languages**

- English (Fluent)
- French (Intermediate)
