**Summary:**

**Highly skilled and detail-oriented Mobile App Developer with 5+ years of experience in developing and maintaining mobile applications for Android and iOS platforms. Proficient in various programming languages and frameworks, with a strong focus on delivering efficient and user-friendly solutions. Excellent problem-solving abilities and a strong passion for staying up-to-date with the latest industry trends and technologies.**

**Skills:**

- Mobile Application Development**
- Android Studio**
- Java, Kotlin**
- iOS development (Swift)**
- Cross-platform frameworks (e.g., React Native, Flutter)**
- UI/UX Design**
- RESTful APIs**
- Test-Driven Development (TDD)**

- **Version Control (Git)**
- **Agile/Scrum Methodology**
- **Strong Communication Skills**

**Experience:**

**Mobile App Developer | XYZ Company**

**January 2018 - Present**

- **Collaborate with cross-functional teams to develop, test, and maintain mobile applications for both Android and iOS platforms.**
- **Implement UI/UX designs provided by the design team, ensuring a seamless and user-friendly experience.**
- **Utilize various programming languages and frameworks, such as Java, Kotlin, Swift, React Native, and Flutter, depending on project requirements.**
- **Work closely with stakeholders to gather requirements, define project scope, and provide accurate time and effort estimations.**
- **Conduct thorough testing and debugging to ensure applications meet quality standards and are free of bugs.**
- **Troubleshoot and resolve application issues reported by users, providing prompt support and maintaining a high level of customer satisfaction.**
- **Collaborate with the backend development team to integrate RESTful APIs and ensure smooth data flow between the application and server.**

## **Junior Mobile App Developer | ABC Solutions**

**May 2015 - December 2017**

- Assisted in the development and maintenance of mobile applications for Android and iOS platforms.
- Worked closely with senior developers to implement new features and enhancements based on client requirements.
- Assisted in testing and debugging activities to ensure high-quality and error-free applications.
- Conducted research on emerging technologies and provided recommendations for improving application performance and user experience.
- Participated in code reviews to identify and address any potential issues or areas for improvement.

## **Education:**

**Bachelor of Computer Science | University of XYZ**

**September 2011 - May 2015**

## **Certifications:**

**Mobile Application Development Certification | XYZ Training Center | 2016**

## **Projects:**

### **- "MyRecipe App" (Personal Project)**

- Developed a cross-platform mobile application using React Native that allows users to search for recipes, save favorites, and create personalized shopping lists.**
- Implemented synchronization with a backend server to ensure data consistency across devices.**
- Integrated push notifications to provide users with personalized recipe recommendations.**

### **- "Expense Tracker App" (XYZ Company)**

- Collaborated with a team of developers to create a native Android application using Java for tracking personal expenses.**
- Implemented a user-friendly interface with graphical data representation for easy expense analysis.**
- Integrated with APIs to fetch currency exchange rates in real-time.**

## **Languages:**

- English (Fluent)**
- Spanish (Intermediate)**
