Summary:

Highly motivated software developer with 5 years of experience in full-stack development.

Skilled in building scalable and robust software solutions using various programming languages and frameworks. Strong problem-solving abilities and a passion for developing innovative and efficient code. Continuously seeking opportunities to expand expertise and stay updated with the latest industry trends.

Education:

Bachelor of Science in Computer Science

XYZ University, City, State

Graduated: May 20XX

Skills:

- Programming Languages: Java, Python, C++**
- Web Technologies: HTML, CSS, JavaScript, jQuery, AngularJS, ReactJS**
- Database: MySQL, Oracle, MongoDB**

- **Frameworks: Spring, Hibernate, Django**
- **Version Control Systems: Git, SVN**
- **Agile Development Methodologies**
- **Troubleshooting and Debugging**
- **Object-Oriented Design**

Experience:

Software Developer | ABC Company | City, State | June 20XX - Present

- **Collaborate with cross-functional teams to develop and maintain enterprise-level software applications.**
- **Design and implement efficient code and database structures to enhance application performance.**
- **Conduct code reviews and ensure adherence to coding standards, best practices, and quality guidelines.**
- **Participate in the complete software development lifecycle, from requirement gathering to deployment and maintenance.**
- **Optimize existing applications to improve scalability and reduce response time.**
- **Regularly update technical documentation to ensure accurate and up-to-date information.**

Software Development Intern | DEF Corporation | City, State | May 20XX - August 20XX

- **Assisted in the development and testing of web applications using HTML, CSS, and JavaScript.**

- Collaborated with team members to improve application functionality and user experience.
- Conducted unit testing and debugging to identify and resolve software defects.
- Assisted in creating and executing test plans to ensure the quality and reliability of software products.

Projects:

1. **E-commerce Website** - Developed a responsive e-commerce website utilizing AngularJS, Node.js, MongoDB, and Express.js. Integrated payment gateway and implemented user authentication functionalities.
2. **Task Management System** - Designed and implemented a task management system using Django, PostgreSQL, and ReactJS. Enabled users to create, assign, and track tasks with real-time updates.

Certifications:

- Java Developer Certification (CDE)
- Agile Software Development Certification (ASDC)
