**Phone:** (555) 123-4567

**LinkedIn:** [www.linkedin.com/in/zacharyfisher](http://www.linkedin.com/in/zacharyfisher)

**Github:** [www.github.com/zacharyfisher](http://www.github.com/zacharyfisher)

**Summary:**

**Dedicated and highly motivated Security Analyst with a strong background in implementing and maintaining security systems. Proven ability to assess vulnerabilities, develop and implement comprehensive security plans, and analyze and resolve complex security incidents. Detail-oriented and committed to maintaining the highest level of confidentiality and integrity. Excellent communication skills with a track record of effectively collaborating with cross-functional teams.**

**Education:**

**Bachelor of Science in Computer Science**

**XYZ University, City, State**

**Graduation:** May 20XX

**Certifications:**

**- Certified Information Systems Security Professional (CISSP)**

- **Certified Ethical Hacker (CEH)**

- **CompTIA Security+**

## **Skills:**

### **1. Security Systems:**

- **Expertise in implementing and managing security systems such as firewalls, intrusion detection/prevention systems, antivirus software, and data loss prevention.**
- **Proven track record in assessing security requirements, documenting security controls, and developing security policies and procedures aligned with industry best practices.**

### **2. Vulnerability Assessment:**

- **Proficient in conducting vulnerability assessments using various scanning tools, identifying system weaknesses, and providing recommendations for remediation.**
- **Skilled in analyzing network vulnerabilities and implementing appropriate countermeasures and safeguards.**

### **3. Incident Response:**

- **Experience in incident response and handling security incidents such as malware infections, data breaches, and unauthorized access attempts.**
- **Ability to investigate security events, perform forensic analysis, and provide timely response and recovery measures.**

#### **4. Risk Assessment:**

- **Strong understanding of risk assessment methodologies and frameworks to identify, assess, and mitigate risks effectively.**
- **Familiarity with performing risk assessments on systems, applications, network infrastructure, and third-party vendors.**

#### **Professional Experience:**

##### **Security Analyst**

**ABC Company, City, State**

**Dates**

- **Implemented and managed security systems to protect critical data, including the configuration and maintenance of firewalls, intrusion detection systems, and antivirus software.**
- **Conducted regular vulnerability assessments using scanning tools, identified system weaknesses, and provided remediation recommendations.**
- **Developed and maintained security policies and procedures in compliance with industry standards and regulations.**
- **Performed security incident response activities, including investigating and resolving security incidents, performing system forensics, and restoring compromised systems.**

- Conducted risk assessments on systems, applications, and third-party vendors, resulting in the implementation of appropriate security controls.
- Collaborated with cross-functional teams to perform security awareness training to enhance the overall security posture of the organization.

## **Internship**

**XYZ Company, City, State**

### **Dates**

- Assisted in the analysis and remediation of security vulnerabilities discovered during vulnerability assessments.
- Conducted research on emerging security threats and assisted in the development of security policies and procedures.
- Assisted in performing incident response activities, including triage, containment, and recovery of compromised systems.
- Assisted in conducting risk assessments on critical infrastructure and applications.
