Objective:

Highly skilled and motivated Front-end Developer with 5+ years of experience in building user-friendly and responsive web applications. Eager to leverage my strong technical knowledge and creative problem-solving skills to enhance user experiences and drive business growth.

Education:

Bachelor of Science in Computer Science

XYZ University, City, State

Graduated: May 20XX

Skills:

- Proficient in HTML5, CSS3, JavaScript, and jQuery**
- Experience with front-end frameworks such as React and Angular**
- Familiarity with version control systems, including Git**
- Strong understanding of responsive design principles**

- Ability to optimize web performance and ensure cross-browser compatibility
- Knowledge of UX/UI design principles
- Excellent problem-solving and troubleshooting skills
- Effective communication and collaboration abilities

Experience:

Front-end Developer

ABC Company, City, State

June 20XX - Present

- Develop and maintain responsive web applications using HTML5, CSS3, and JavaScript to deliver visually appealing and user-friendly interfaces
- Collaborate with cross-functional teams to gather requirements and provide technical recommendations for improving the user experience
- Implement front-end designs from wireframes and mockups, ensuring compliance with brand guidelines and accessibility standards
- Write clean and efficient code, following best practices and industry standards
- Optimize website performance by optimizing images, improving page load times, and minimizing HTTP requests
- Conduct cross-browser testing and debugging to ensure website compatibility across different platforms and devices
- Collaborate with back-end developers to integrate front-end interfaces with server-side applications

Front-end Developer Intern

DEF Company, City, State

May 20XX - August 20XX

- **Assisted in the development and testing of responsive web applications using HTML, CSS, and JavaScript**
- **Collaborated with senior developers to implement new features and functionalities**
- **Conducted code reviews and provided feedback on code quality and best practices**
- **Assisted in troubleshooting and debugging issues during development and testing phases**
- **Contributed to the design and development of responsive email templates**

Projects:

- **Created a responsive e-commerce website using React, which increased online sales by 30%**
- **Developed a mobile-friendly landing page for a startup, resulting in a significant increase in user engagement**
- **Designed and implemented a user-friendly registration form for a client, reducing the bounce rate by 25%**
