Summary:

Highly skilled Network Engineer with 5+ years of experience in designing, implementing, and managing complex network infrastructures. Proficient in troubleshooting network issues and providing innovative solutions in fast-paced environments. Excellent communication and collaboration skills, with a proven ability to work collaboratively with cross-functional teams.

Experience:

Network Engineer at XYZ Company

January 2017 - Present

- Design and deploy network architectures to ensure efficient and reliable connectivity across multiple locations.

- Manage network equipment including switches and routers, ensuring high availability and performance.

- Troubleshoot network issues, identify root causes, and implement necessary fixes to

minimize downtime.

- Collaborate with vendors to evaluate and select network products that align with business goals.

- Conduct regular network performance analysis and make recommendations for optimization and improvement.

- Develop and maintain network documentation including diagrams, processes, and procedures.

Network Administrator at ABC Corporation

June 2014 - December 2016

- Configured and maintained network devices such as routers, switches, and firewalls.

- Monitored network performance, identified bottlenecks, and implemented corrective measures.

- Assisted in the design and implementation of network security protocols and measures.

- Supported end-users with network-related issues and provided timely resolutions.

- Conducted regular backup and recovery procedures to ensure data integrity.

Skills:

- Network design and implementation

- Routing and switching protocols (EIGRP, OSPF, BGP)

- VPN technologies (IPSec, SSL)

- Network security (Firewalls, IDS/IPS)

- Troubleshooting and problem-solving

- Network monitoring and performance analysis

- Documentation and reporting

- Strong communication and teamwork skills

Education:

Bachelor's Degree in Computer Engineering

XYZ University

Graduated in May 2014

Certifications:

Cisco Certified Network Professional (CCNP)

CompTIA Network+

Certified Information Systems Security Professional (CISSP)
